

TAKE HIGH-QUALITY PHOTOS WITH A BRIGHT LENS AND A LARGE SENSOR

Equipped with a large-diameter zoom lens with a maximum aperture of f/1.8 - f/2.8 and a large 1.0" type image sensor. The use of Canon's newly-developed high performance lens can also gather more light with its large sensor, allowing you to capture vivid and sharp pictures in a wide variety of situations.

Well defined clouds with minimal blowout highlights

Rich and vibrant still shots

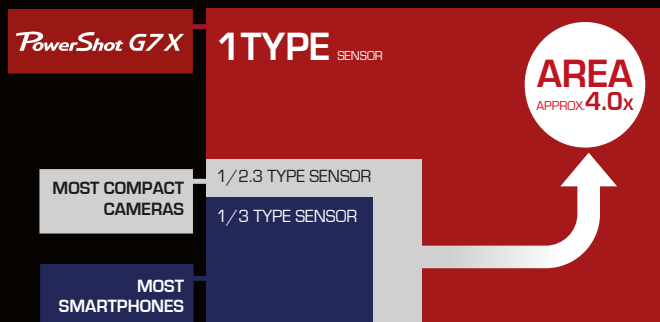

Beautifully-depicted portraits

Low noise nightscape shots

20.2M, 1-INCH TYPE LARGE SENSOR

The equipped 1-inch type CMOS sensor has 4 times the surface area of conventional sensors found in compact cameras. It is capable of receiving more light to achieve ISO 12800 quality all the time and can capture high-quality photos with low noise.

ACHIEVE HIGH QUALITY IMAGES WITH CANON'S HS SYSTEM AND HIGH QUALITY LENSES

The HS System combines the high sensitivity 1-inch CMOS sensor with Canon's DIGIC 6 Image Processor to achieve high quality images with low noise. Together with Canon's newly developed optimized lenses, you can now capture stunning images at near EOS quality even with a compact camera.

180° TILT-UP TOUCH SCREEN
The approx. 1.04 million dot LCD screen is capable of displaying photos beautifully during playback. It also allows selfies to be taken with the screen facing the front. Effortless touch operations make it easy to operate the camera.

1-INCH BACK-ILLUMINATED CMOS SENSOR
The large 20.2 megapixel sensor captures high definition images, allowing you to shoot brilliant images with low noise even when capturing nightscapes.

BUILT-IN POP-UP FLASH
With a maximum range of 7m, the built-in pop-up flash is concealed within the top surface of the camera and pops up automatically when needed. It can also be manually popped up using the Flash up Switch.

CAMERA OPERATING DIALS WITH DIAMOND KNURL PATTERN
The Mode and Exposure Compensation Dials are stacked together and each dial is beautifully designed with a diamond knurl pattern that improves dial operability.

INCREASED OPERABILITY WITH THE LENS CONTROL RING
The Control Ring surrounding the large lens comes with a beautiful diamond knurl pattern. It provides a good grip and feel for adjusting the zoom or aperture settings, giving you true camera operability to capture stunning images like a pro.

NEWLY-DEVELOPED, LARGE APERTURE ZOOM LENS
The 4.2x zoom lens that comes equipped is more than capable of covering the ranges required for your photographic needs. Furthermore, this bright, high performance lens features a wide angle aperture F value of f/1.8. It also achieves beautifully round blur shapes with its 9 aperture blades.

PREMIUM PERFORMANCE IN AN ELEGANT, COMPACT BODY

Wrapped in sleek, metallic casing, this stylish new camera shows attention to detail and the premium quality of every feature. A 3-inch touch screen can be tilted approximately 180° for easy, spontaneous selfies, while a large aperture Canon lens and a 1-inch type sensor deliver 'heavyweight' professional results that defy the expectations of such a compact and lightweight model.

MACRO SHOOTING

Close-up shots can be taken up to approx. 5cm away. Capture stunning images of your subjects up close using the bright Canon Lens.

VERSATILE SHOOTING FUNCTIONS

Star Mode
Stunning images of the night sky are yours with just a push of the shutter button.

High Dynamic Range
Reduce over- and under-exposed area even when capturing backlit or high-contrast scenes.

Manual (Movie)
Manually control the Av, ISO Speed and Tv for videos even while you are filming.

Creative Shot
6 unexpected artistic photos are automatically created from just 1 shot.

Background Defocus
Automatically creates captivating bokeh effects to fit any scene.
