	Card size	KC-36IP • KC-18IF • KC-18IL • KC-18IS
COMPATIBLE CASSETTES	Postcard size	PCP-CP400
	Card size	PCC-CP400
OPTIONAL BATTERY	NB-CP2LI / NB-CP2LH	

* Print speed in comparison with CP1300, measured from start of yellow printing to ejection of paper. With print finish set to "glossy".

◊ Album storability is a predicted value calculated according to the indoor heat resistance test method and life evaluation criteria of the Digital Color Photo Print Stability Evaluation (JEITA CP-3901) standard published by JEITA (Japan Electronics and Information Technology Industries Association). <Life evaluation criteria> Predicted values are based on tests assuming album storage in an environment with a temperature of 23°C and humidity of 50%. When the monochromatic/reflective optical density value (0.5, 1.0) decreases by 30% (set for each color unit), and the discoloration density difference of Y, M, and C components (each component color) in BK decreases by 15% etc. are determined as limit points. Photos are simulated images.

△ Compatible with devices running iOS 14 or later, iPadOS 14 or later, and Android 8 or later.
